# Who We Are

NETSTAR is a leading telecommunications and multimedia brand under PT Centralindo Pancasakti (CPS Group) — a licensed provider of Internet, Fiber- Optic Network, and Cable TV services in Indonesia.

As part of the Napan Group, NETSTAR combines decades of expertise, technology innovation, and customer focus to deliver fully integrated digital solutions.

We are proud to introduce “The Real 3Play Service” — a true integration of Internet, Pay TV, and IP Telephony in one seamless ecosystem.

With NETSTAR, businesses, hospitality brands, and communities stay connected, informed, and entertained.

## Vision

Connecting and entertaining everyone with the internet and media.

## Mission

To be Indonesia's most trusted internet-based solution provider, delivering high-quality connectivity, multimedia, and communication services that enhance productivity and lifestyle

# Milestones

**1996**

Established **PT Total Info Karisma (Central Online)** an internet-based solution company, providing the best data, internet, and multimedia services in Indonesia.

**2011**

Acquired **PT Technology Data Indonesia (Fiberone)** a fiber optic service provider that deploys fiber optic cables to server corporations, telco, and ISP players.

**2012**

Established **PT Solusi Sistem Integrasi** to provide IT services, specifically for LAN deployment, network assistance, telephony, outsourcing and maintenance.

**2018**

Formed **Netstar Multimedia Teknologi (Netstar TV)** to accommodate hospitality customers with pay-tv entertainment systems.

**2020**

Launched the unified brand of **NETSTAR** merging all of its customers, infrastructure, and licenses into one brand.

# The Real 3Play Experience

**One Connection.  
Infinite Possibilities.**

NETSTAR brings the power of 3Play Service the perfect combination of:

High-Speed Internet for fast, stable, and scalable access.

Pay TV with premium local and international content.

IP Telephony for clear, efficient communication across locations.

Choose from flexible packages . Single Play, Two Play, or Triple Play, tailored to meet your operational and entertainment needs.

***At NETSTAR, we don't just provide connections we create experiences.***

# Internet Solutions

**Fast. Reliable.  
Always Connected.**

NETSTAR delivers fiber-optic and wireless internet built for performance and reliability. Whether you operate in urban centers or remote areas, our broadband infrastructure ensures consistent, high-speed access wherever you are.

**We provide :**

- Dedicated corporate connections
- Wireless and VSAT for rural coverage
- Guaranteed uptime with 24/7 monitoring
- Scalable bandwidth for growing businesses

***Stay productive, connected, and one step ahead  
— powered by NETSTAR Internet.***

# Pay TV Solutions

## Entertainment That Inspires.

NETSTAR's Pay TV service transforms the way audiences experience entertainment.

With IPTV and Digital Cable (MATV Headend) technology, we deliver crystal-clear visuals and a wide range of content options from local favorites to premium international channels.

### We provide :

- HD/SD channel packages
- Custom hotel branding & in-room channels
- Localized content for guest promotions
- Easy integration with hospitality systems

***Ideal for hotels, apartments, hospitals, and residential buildings — where quality viewing meets convenience.***

# IP Telephony

## Communication Without Boundaries.

NETSTAR's IP Telephony keeps your teams connected through seamless internet-based calling.

Say goodbye to complex phone systems and hello to clear, cost-effective, and flexible voice communication.

### Benefits :

- Flat domestic rates across Indonesia
- Free calls between NETSTAR users
- Full PBX integration support
- Perfect for call centers, branches, and remote offices

***Reliable voice, simplified management —  
communicate without limits.***

# Datacomm Solutions

## Connecting Every Branch, Every Time.

NETSTAR's Datacomm service interlinks business branches across Indonesia through a secure, high-performance network.

Our technology stack includes fiber optics, microwave, wireless, and VSAT, ensuring data connectivity even in challenging locations.

### Solutions include :

- Corporate VPN / MPLS
- Cloud and hybrid infrastructure support
- Inter-branch communication & data routing
- High availability with proactive monitoring

***Reliable connection across every distance  
— guaranteed by NETSTAR.***

# Fivto star: Smart Hospitality TV

**Transform Every Room  
into an Experience.**

NETSTAR's FIVTOSTAR system centralizes in-room entertainment and operations through a smart platform for modern hospitality.

The platform runs on dedicated hotel servers and utilizes secure internal networking for reliable content and real-time service delivery.

## **Solutions include:**

- Interactive, hotel-branded TV interface
- Integrated room service, check-out, and promotions
- Access to popular OTT platforms (Netflix, Disney+, etc.)
- In-room advertising and hotel information

***Beyond TV, A seamless guest experience starts here.***

# Managed Services

**Your Network.  
Our Expertise.**

NETSTAR's Managed Service solutions ensure that your IT infrastructure runs smoothly so you can focus on what truly matters: ***your business.***

## **Our services cover :**

- Data and fiber-optic cabling installation
- Router, switch, and network configuration
- IT asset procurement and maintenance
- On-site technical staffing & helpdesk support

***Seamless infrastructure, guaranteed.  
Your expert IT team is here.***
